

MINI MANUAL INFLATE UA-704 Blood Pressure Monitor

Fast. Easy. Accurate.

- “Mini” size
- One button operation
- Professional accuracy
- Compact retail package
- Affordable and reliable
- Latex free

Digital blood pressure technology that fits in the palm of your hand!

The UA-704 Mini Manual Inflate is an innovative monitor that incorporates digital blood pressure technology and advanced features in a small, compact design. Included with this hand-held monitor is A&D's Irregular Heartbeat feature which allows those who have an irregular heartbeat a reliable method of taking their blood pressure at home.

A manual inflate monitor such as the UA-704 offers an economical solution to those who need an accurate way to monitor their blood pressure, but without the expense of an automatic inflate unit. In addition, this energy efficient monitor can perform approximately 2,000 measurements with just one 'AA' battery (included).

- Space-saver design ideal for travel
- Irregular Heartbeat Detection
- Requires only one 'AA' battery (included)
- Available in medium or large cuff sizes (cuffs can also be purchased separately)
- Large-print instruction guide with illustrations and quick start card in English, French and Spanish
- Four week blood pressure logbook included

UA-704 Mini Manual Inflate

To obtain an accurate reading, it is important to use the correct cuff size. A cuff that is too small will result in a higher than expected reading and a cuff that is too large will result in a lower than expected reading. The UA-704 Mini Manual Inflate unit comes in two different cuff sizes to accommodate your customer's needs. This monitor is not compatible with the *LifeSource* small cuff.

	PART NUMBER	UPC NUMBER	CUFF SIZE
UNITED STATES AND CANADA	UA-704V	0-93764-60106-4	Medium 9.4 - 14.2" (24 - 36 cm)
